

1.9. REHABILITATION POLICY

A major priority for PTC is Workplace Health & Safety, and as such, the Company shall endeavour to minimise risks and provide a safe working environment.

It is company policy to ensure that when workplace injuries or illness occurs, workers have access and are to participate in rehabilitation to facilitate the earliest practical return to work.

PTC is committed to the rehabilitation process in order to restore to the fullest, workers' functions so they may live and work to the full extent of their capacity.

The rehabilitation process will involve a close working relationship between the injured worker, the treating medical practitioner, PTC management and relevant authorities/regulators.

Ongoing contact with injured workers will be maintained by a trained rehabilitation coordinator to ensure PTC Rehabilitation Policy and Procedures are effective and legislative requirements are met.
